

FOUNDERS

SANKUNNI VAIDYAR
1874 - 1957

He Laid the Cornerstone for future of Kairali Ayurvedic Group

Dr. K.S. VASUDEVAN
1919 - 1977

He enlightened and showed us our path towards Kairali Ayurvedic Group

KAIRALI AYURVEDIC GROUP

One of the pioneers who started to propagate Ayurveda from their homeland to the rest of the world. An epitome of a healthy lifestyle and beautiful living, the Kairali family, established itself to spread the vitality and utility of Ayurveda as a natural healing science. Passing on the knowledge and expertise to the following generations, Mr. K.V. Ramesh and Mrs. Gita Ramesh took up the initiative to formalise an institution that spoke only about the true and authentic essence of Ayurveda. They are learned, experienced and accomplished individuals who believed in the workings of Ayurveda are equally committed to making Ayurveda spread out globally. It is through their culminated efforts that Kairali Ayurvedic Group has reached new pinnacles of success and benevolence.

Vision

The Kairali Group is amongst at the biggest and brightest faces of traditional medicine in the world. The immense success can be attributed to the fact that they have never wavered from their chosen path and have continued to strive towards their goal incessantly. This determination to fulfil their ambitions has kept them going despite numerous difficulties in their way. People say that adversities either make or break them, but in this case, problems have only managed to strengthen their will power and the goal in propagating this 'health through Ayurveda'.

Mission

The mission of Kairali is to be recognised as the pioneers in the field of Ayurveda, the company which should be credited with the efficient propagation of Ayurveda throughout the world. They have continued to develop new things with the help of natural elements, and it is because of them that Ayurveda has started gaining traction in the world once again. They seek to form partnerships and investments to expand their mission of empowering individuals and transforming their lives by the natural and inherent altruism of Ayurvedic arts.

"AYURVEDA IS KAIRALI, KAIRALI IS AYURVEDA"
